Sometimes an image can speak miles. What has come to mind is Carol Burnett, for those that can remember, the magnificent woman.

She played a number of characters in her long standing TV show. She was the janitor at the end of her show, and this was her song.

Artist: Carol Burnett Lyrics by: Joe Hamilton
Carol's Theme I'm so glad we had this time together, Just to have a laugh, or sing a song. Seems we just get started and before you know it Comes the time we have to say, "So long". There's a time you wanna sigh for dreamin. And a time for things you have to do. The time I love the best is any evening I can spend a moment here with you. When the time comes and I'm feelin' lonely And I'm feelin' oh so blue. I just sit back and think of you only And the happiness still comes through. That's why I'm glad we had this time together. Cause it makes me feel like I'm along. Seems we just get started and before you know it Comes the time we have to say, "So Long". Good night everybody! Carol's Theme Lyrics

These lyrics ring true.
Our time on the planet is short, and there are many times i forget that. I had a couple scares this year One was that i was unable to walk. so i appreciate our time together and when the time comes , let the image of carol burnett come to mind

and a reminiscent smile and okay the mop and comfortable cool clothes.

So Long , good night everybody! tug tug of my ear

Krystyna and Camper.
Krystyna was beside herself when
her cat went missing. happily she
was able to welcome her beloved
camper home.

Krystyna put out flyers, told
neighbors and used the internet,
she wasn't giving up. after 6 days
when missing, camper meowed in
the night at the door, her dog
heard the meow and the rest is
history.

Question: What is ISAR ?

Over two decades ago, Harvard University's Office of Government and Community Affairs sponsored an in-depth study of the animal rights/welfare movement, including its goals and strategies.

In its Report, Harvard noted that "[P]hilosophically, animal rights/welfare groups can be classified as abolitionists or regulationists. The abolitionists, such as ISAR...constitute a minority within a movement. They are, however, also the most diligent, tactical and clear thinking. They use the law; publications and education to work for their ultimate goals."

What Harvard said then about ISAR remains true today.

International Society for Animal Rights (ISAR) was chartered in the District of Columbia nearly a half-century ago, making our organization one of the oldest humane education organizations in the United States.
